Covenant Health (Lubbock, TX) ~ Mobile Services Program

Covenant's Mobile Services program includes three mobile clinics: a mammography unit and two dental serving Texas. The mobile mammography units provide mammography screenings within a 100-mile radius of Lubbock for women age 40 and older. The mobile dental vans provide dental services for the rural, adult, indigent population within a 100-mile radius of Lubbock. The mobile dental units also visit nursing homes and rehabilitation facilities to provide dental care for housebound patients. Professional services include: fillings, extractions and other basic dental procedures. Contact: mammography - (806) 725-8062; dental - (806) 725-6587

Camino Health Center (San Juan Capistrano, CA) ~ Mobile Vans & Health Presence

The Mobile Medical Unit and the Diabetes Van provide unique solutions to the lack of transportation faced by South County residents, including San Clemente and Lake Forest. The Medical unit, a doctor's office on wheels, is complete with two exam rooms and a small dispensary and is fully equipped for standard medical care and minor procedures. The Diabetes Van, fully equipped with technology for telehealth services, offers screening, education and treatment for those in communities who are most at risk for diabetes and may not have transportation to the clinic. Contact: (949) 240-2272

Puente a La Salud (Orange, CA) ~ Care for the Poor

Through the generosity of our donors, St. Joseph Hospital provides vital, often life-saving care to the working poor in our community. Without such support, many of these patients would have nowhere else to turn for care. Puente a La Salud ~ Mobile Community Clinics serve all of Orange County. Puente provides access to primary medical, dental, vision care and health promotion services for workers and their families. Contact: (714) 744-8801

Queen of the Valley (Napa, CA) ~ Queen’s Mobile Dental Clinic

Enhancing the quality of life for those in need – one tooth at a time

Queen’s Mobile Dental Clinic was founded by the Medical Center and its partners to address a major health need of children in our community: access to dental care. Dental cavities are the single most common chronic disease of childhood, occurring more frequently than asthma. Licensed by the California Department of Health Services, full-service dental care is provided to low-income children at specific locations in Napa County neighborhoods. In addition to treatment, children and their families receive multiple sessions of oral health education about causes of tooth decay, the importance of good nutrition and instruction in the practice of good oral hygiene. We serve children ages 6 months to 21 years, are Napa County residents, who don’t have a dentist. Contact: (707) 251-2000

St. Joseph Health (Sonoma, CA) ~ Mobile Health and Dental Clinics

The Mobile Primary Care and Dental Clinics serve children and adults from low-income families who are without a regular primary care physician or dentist, and those who have difficulty obtaining affordable care in their community. The primary care clinic transcends language, culture and access to care barriers by bringing healthcare directly to those who need it most. The Clinic offers: health screenings and well child exams, immunizations, treatment of minor medical problems, health and nutritional education. Contact: Primary care - (707) 547-4612; Dental - (707) 547-2233

St. Jude Medical Center (Fullerton, CA) ~ Mobile Family Health Clinic

At churches and community centers throughout north Orange County, a scene repeats itself dozens of times each week. Children and adults, in need of everything from treatment for ear infections to prenatal care, wait for the arrival of the St. Jude Medical Center Mobile Family Health Clinic. Over 1,000 low-income children and adults receive medical care each year through this community service. The mobile health clinic makes regularly scheduled stops throughout underserved neighborhoods providing low-cost quality medical care. The mobile health clinic provides a primary medical care home for hundreds of uninsured and underinsured families. But services go beyond meeting the immediate need for medical care: counseling, prescriptions, case-management, support groups, and help in accessing local, state and federal resources are all part of our commitment. Staff is also available to help individuals apply for health insurance. Contact: (714) 446-5100

St. Mary Medical Center (Apple Valley, CA) ~ Bright Futures Mobile Health Services

Bringing healthcare needs into our neighborhoods

The Bright Futures mobile health services program is funded through grants from the St. Joseph Health Foundation. We help uninsured or low to moderate-income families get health care for adults and children. Our van brings health care services right to your neighborhood. Adult services include: physical examinations, cancer screening, evaluation for illness, chronic disease management (e.g. diabetes), immunizations (flu shots, TB screening, Hep B. and Tdap), health education & information, and blood pressure check. Children services include: immunizations, health education and information. The mobile van rotates among several community locations throughout the High Desert region of San Bernardino County (Apple Valley, Victorville, Adelanto and Hesperia). Contact: (760) 242-2311 (x8224)
